"Taking into account the dramatic changes the country has seen in the past two years--including the establishment of a human rights commission, the release of political prisoners, and reforms in health and education--David I. Steinberg offers an updated second edition of *Burma/Myanmar: What Everyone Needs to Know*. More than ever, the history, culture, and internal politics of this country are crucial to understanding the breaking headlines emerging from it today and placing them in a broader context. Geographically strategic, Burma/Myanmar lies between the growing powers of China and India, and has a thousand-year history as an important realm in the region--yet it is mostly unknown to Westerners. Burma/Myanmar is a place of contradictions: a picturesque land with mountain jungles and monsoon plains, it is one of the world's largest producers of heroin. Though it has extensive natural resources including oil, gas, teak, metals, and minerals, it is one of the poorest countries in the world. And despite a half-century of military-dominated rule, change is beginning to work its way through the beleaguered nation, as it moves to a more pluralistic administrative system reflecting its pluralistic cultural, multi-ethnic base"--Provided by publisher.

How did one of the world ' s "buzzy hotspots" (Fodor ' s 2013) become one of the top ten places to avoid (Fodor ' s 2018)? Precariously positioned between China and India, Burma ' s population has suffered dictatorship, natural disaster, and the dark legacies of colonial rule. But when decades of military dictatorship finally ended and internationally beloved Nobel laureate Aung San Suu Kyi emerged from long years of house arrest, hopes soared. World leaders such as Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor, Thant Myint-U saw the cracks forming. In this insider ' s diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change, and deep-seated feelings around race, religion, and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world ' s problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Myint-U explores this question—a concern not just for the Burmese but for the rest of the world—warning of the possible collapse of this nation of 55 million while suggesting a fresh agenda for change.

Burma has lived under military rule for nearly half a century. The results of its 1990 elections were never recognized by the ruling junta and Aung San Suu Kyi, leader of Burma's pro-democracy movement, was denied her victory. She has been under house-arrest ever since. Now an economic satellite and political dependent of the People's Republic of China, Burma is at a crossroads. Will it become another North Korea, will it succumb to China's political embrace or will the people prevail? Michael Charney's book- the first general history of modern Burma in over five decades - traces the highs and lows of Burma's history from its colonial past to the devastation of Cyclone Nargis in 2008. By exploring key themes such as the political division between lowland and highland Burma and monastic opposition to state control, the author explains the forces that have made the country what it is today.

No country in Asia in recent years has undergone so massive a political shift in so short a time as Myanmar. Until recently, the former British colony had one of the most secretive, corrupt, and repressive regimes on the planet, a country where Nobel Peace Prize laureate Aung San Suu Kyi was held in continual house arrest and human rights were denied to nearly all. Yet events in Myanmar since the elections of November 2010 have profoundly altered the internal mood of the society, and have surprised even Burmese and seasoned foreign observers of the Myanmar scene. The pessimism that pervaded the society prior to the elections, and the results of that voting that prompted many foreign observers to call them a "sham" or "fraud," gradually gave way to the realization that positive change was in the air. In this updated second edition of *Burma/Myanmar: What Everyone Needs to Know*®, David I. Steinberg addresses the dramatic changes in the country over the past two years, including the establishment of a human rights commission, the release of political prisoners, and reforms in health and education. More than ever, the history, culture, and internal politics of this country are crucial to understanding the current transformation, which has generated headlines across the globe. Geographically strategic, Burma/Myanmar lies between the growing powers of China and India. Yet it is mostly unknown to Westerners despite being its thousand-year history as a nation. Burma/Myanmar is a place of contradictions: a picturesque land with mountain jungles and monsoon plains, it is one of the world's largest producers of heroin. Though it has extensive natural resources including oil, gas, teak, metals, and minerals, it is one of the poorest countries in the world. And despite a half-century of military-dominated rule, change is beginning to work its way through the beleaguered nation, as it moves to a more pluralistic administrative system reflecting its pluralistic cultural and multi-ethnic base. Authoritative and balanced, *Burma/Myanmar* is an essential book on a country in the throes of historic change. *What Everyone Needs to Know*® is a registered trademark of Oxford University Press.

Myanmar is going through a period of profound - and contested - transition. The country has experienced widespread if sometimes uneven reforms, including the start of a peace process between the government and Myanmar Army, and some two dozen ethnic armed organizations, which had long been fighting for greater autonomy from the militarized and Burman-dominated state. This book brings together chapters by Burmese and foreign experts, and contributions from community and political leaders, who discuss the meaning of citizenship in Myanmar/Burma. The book explores citizenship in relation to three broad categories: issues of identity and conflict; debates around concepts and practices of citizenship; and inter- and intra-community issues, including Buddhist-Muslim relations. This is the first volume to address these issues, understanding and resolving which will be central to Myanmar's continued transition away from violence and authoritarianism.

Zoya Phan was born in the remote jungles of Burma, to the Karen ethnic group. For decades the Karen have been under attack from Burma's military junta; Zoya's mother was a guerrilla soldier, her father a freedom activist. She lived in a bamboo hut on stilts by the Moei River; she hunted for edible fungi with her much-loved adopted brother, Say Say. Many Karen are Christian or Buddhist, but Zoya's parents were animist, venerating the spirits of forest, river and moon. Her early years were blissfully removed from the war. At the age of fourteen, however, Zoya's childhood was shattered as the Burmese army attacked. With their house in flames, Zoya and her family fled. So began two terrible years of running from guns, as Zoya joined thousands of refugees hiding in the jungle. Her family scattered, Zoya sought sanctuary across the border in a Thai refugee camp. Conditions in the camp were difficult, and Zoya now had to care for her ailing mother. Zoya, a gifted pupil, was eventually able to escape, first to Bangkok and then, with her enemies still pursuing her, in 2004 she fled to the UK and claimed asylum. The following year, at a 'free Burma' march, she was plucked from the crowd to appear on the BBC, the first of countless interviews with the world's media. She became the face of a nation enslaved, rubbing shoulders with presidents and film stars. By turns uplifting, tragic and entirely gripping, this is the extraordinary true story of the girl from the jungle who became an icon of a suffering land.

The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations, forced migrations and extra-judicial killings on an enormous scale. This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of the disaster. Casting new light on Rohingya identity, history and culture, this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide. This book adds convincingly to the body of evidence that the government of Myanmar has enabled a genocide in Rakhine State and the surrounding areas.

This work compiles selected speeches, letters, and statements by the father of Burmese independence, Aung San. The editor's introduction offers an overview of this remarkable man's life, thought, and achievements. The documents included here provide insight into the politics of Aung San—an eminently pragmatic leader focused on attaining both national unity and social harmony—through his own words.
