In *The Collaborative Leader*, L. Michael Hall and Ian McDermott answer key questions about leadership. What is collaboration? How does it relate to leadership? How do you do it effectively? How do you pull people together, inspire them with a meaningful vision, and organise them so that a team spirit emerges and peak performance is achieved? *The Collaborative Leader* is a practical guide to collaborating with others and leading collaboratively. That means learning how to win the hearts and minds of those who we lead. Packed with practical and immediate action points, the book will show you how to turn around a non-collaborative group or environment immediately. You will find assessment questions throughout, step-by-step processes on collaboration, and an invitation to action at the end of each chapter: a personal challenge to step up to the collaborative level of leadership. Learn the core competencies that facilitate a healthy, joyful, and productive collaboration. The foundation of collaborative leadership is self-collaboration. The leader who cannot effectively collaborate cannot effectively lead. If you are to walk your talk, you need to demonstrate collaborative skills yourself, and this book will show you the 'how to's' for developing the critical success elements of leadership. The best collaborators are those who have lots of fun collaborating. The goal can be serious. The collaboration can be fun. Learn how it's possible by understanding the structure and processes of collaboration. Whether you're responsible for team or organisational development, you'll find plenty here to inspire you to transform your leadership into collaborative leadership. Chapters include: Part I: The Foundations of Collaborative Leadership—Leading the Call, 1. The Vision—Why Bother? 2. The Mirror—Where Are You? 3. What Is a Collaborative Leader? 4. By attending to the adult learning that takes place through more collaborative approaches to leadership, this volume draws upon scholars who understand leadership as more participatory, transformative, generative, and democratic. Looking beyond position-based individual leadership it captures how adults learn through the diverse actions, processes, and strategies collaborative leaders employ to bring about change. Drawing from scholarship and practice, this sourcebook weaves theory with the authors experiences by showcasing real-life examples of collaborative leadership in a variety of contexts including community, healthcare, secondary, and post-secondary education. It also provides a range of creative strategies such as playbuilding, coaching, fostering global partnerships, and ensemble

leaderships as well as indigenous and feminist perspectives on leadership. This sourcebook will support adult educators seeking to promote learning through more collaborative approaches to leadership and engagement in a variety of settings. Readers will benefit by deepening their understanding of how leadership is not only enacted among individuals, but how it is also expressed in collective ways of thinking, doing, being, knowing, and learning. This is the 156th volume of the Jossey Bass series *New Directions for Adult and Continuing Education*. Noted for its depth of coverage, it explores issues of common interest to instructors, administrators, counselors, and policymakers in a broad range of education settings, such as colleges and universities, extension programs, businesses, libraries, and museums.

The health of American democracy ultimately depends on our willingness and ability to work together as citizens and stakeholders in our republic. Government policies often fail to promote such collaboration. But if designed properly, they can do much to strengthen civic engagement. That is the central message of Carmen Sirianni's eloquent new book. Rather than encourage citizens to engage in civic activity, government often puts obstacles in their way. Many agencies treat citizens as passive clients rather than as community members, overlooking their ability to mobilize assets and networks to solve problems. Many citizen initiatives run up against rigid rules and bureaucratic silos, causing all but the most dedicated activists to lose heart. The unfortunate—and unnecessary—result is a palpable decline in the quality of civic life. Fortunately, growing numbers of policymakers across the country are figuring out how government can serve as a partner and catalyst for collaborative problem solving. Investing in Democracy details three such success stories: neighborhood planning in Seattle; youth civic engagement programs in Hampton, Virginia; and efforts to develop civic environmentalism at the U.S. Environmental Protection Agency. The book explains what measures were taken and why they succeeded. It distills eight core design principles that characterize effective collaborative governance and concludes with concrete recommendations for federal policy.

Praise for *Everyone Leads* "If America is going to continue to thrive in the twenty-first century, we must strengthen our sense of community. In *Everyone Leads*, Schmitz lays out the challenges for those of us who have a passion to make a difference and, more important, the strategies to spark lasting change from the grassroots up. His unique perspective and experience make this a must-read for community activists."—Geoffrey Canada, president and CEO, Harlem Children's Zone "This moment in history demands that we stop waiting for others—especially others living in Washington, D.C.—to solve the problems and right the wrongs of our times. Now, more than ever, we must mine the most underutilized resource available to us: We the People. *Everyone Leads* shows us how."—Arianna Huffington, president and executive editor, Huffington Post Media Group "Social change has always come from the leadership of the many, not the few. *Everyone Leads* shows us how we can all step up and contribute to social change."—Tavis Smiley, author, broadcaster, philanthropist "Every nonprofit can learn from Public Allies' example that the leadership we need to solve problems exists within our communities. *Everyone Leads* is a guide to inclusion, collaboration, and community building that will inspire readers to see leadership and opportunity in places we don't usually look."—Sterling Speirn, CEO, W.K. Kellogg Foundation "Schmitz has produced the road map we need for this 'all hands on deck' moment when we need a new spirit of collaborative leadership and action to face the problems of our day. Reading this book, we are not surprised that Michelle Obama learned from Public Allies how to build leaders and build communities."—Harris Wofford, former United States Senator, and CEO of the Corporation for National and Community Service under President Bill Clinton Register at www.josseybass.com/emailfor more information on our publications, authors, and to receive special offers.
