Teaches various techniques for manga, including tone work, etching, and special effects.

A guide to the relaxing and healing skills of massage, the ancient Japanese art of shiatsu and reflexology. With step-by-step instructions, the book guides the reader through the complete working sequence for each skill and provides detailed descriptions of appropriate strokes for each part of the body. The book also explains what the body can tell you and shows how massage can be used to soothe, to invigorate, to relieve aches and tensions and to help in difficult circumstances, from work to leisure, from pregnancy to old age.

The use of tone makes the portrayal of action scenes - such as running, flying, fighting, throwing and swordplay - a snap! Jam-packed with speed lines, burst effects and other absolutely vital tones as well as their effective uses, this fifth Computones volume is one you won't want to miss!
