ER nurses treat patients who are suffering from trauma, injury or severe medical conditions and require urgent treatment. Since these specialists work in crisis situations, they must be able to quickly identify the best way to stabilize patients and minimize pain.

~~Emergency Nursing: Everything You Need to Know About Being ...~~

The ER or 'Emergency Room' nurse is a person who is great at quick thinking, decision-making, and multitasking. He or she has the training, aptitude and willingness to adapt to whatever the day happens to bring, as every day is different in the emergency room. Best suited to this role are nurses who appreciate the fast-pace and challenge of not knowing exactly who is coming through the door and what may be wrong with them.

~~How to Become an Emergency Room Nurse—Salary ...~~

Emergency nurses make a difference in the lives of people every day, every shift. While there tends to be a lot of flashing lights and a good bit of chaos, there are true moments of greatness and connection with your patients that you won't find anywhere else in healthcare. If you like action, the unexpected, and making a positive impact in the lives of your patients and community, then a career in the ED is for YOU!
