This is a book about how to take working life in new directions - how to negotiate the labyrinth of choices, how to think about personal ambitions and motivations, and ultimately how to take concrete steps to finding a fulfilling career. It is a self-help book with a difference. Standard career guides are filled with pop psychology and bullet-point advice for writing CVs and making action plans, but How to Find Fulfilling Work casts its net wider. While not ignoring the insights of psychology or the need for practical planning, it reveals wisdom about work found in sociology, history, literature, film and philosophy. It may be a false illusion that there is some perfect dream job out there for us, an ideal calling or vocation. But this book is premised on the idea that it is possible to find work that is life-enhancing. This is a book that inspires as much as it instructs and will aid self-reflection about the wider quest of how to live a good life.

Our relationship with money is one that lasts a lifetime, yet traditionally books on the subject tend to take one of two routes: a) how to get more, or b) how to deal with less. John Armstrong turns these approaches upside down, and looks not at money itself, but at how we relate to it and the meaning we attach to it. How does it drive us and frighten us? Can it change the world for the better? And how much do we actually need? Offering surprising and helpful new insights, this book will encourage you to redefine your feelings about money, and ultimately enable you to discover what is really important to you in life. There are many ways to try to improve our lives - we can turn to the wisdom of philosophers, the teachings of religions or the latest experiments of psychologists. But we rarely to look to history for inspiration - and when we do it can be surprisingly powerful. Showing the lessons that can be learned from the past, cultural historian Roman Krznaric explores twelve universal topics, from work and love to money and creativity, and reveals the wisdom that we've been missing. There is much to be learned from Ancient Greece on relationships, from the industrial revolution on job satisfaction, and from Ming-dynasty China on bringing up our children. Just as a Renaissance 'Wunderkammer' was a curiosity cabinet full of fascinating objects, each with a story behind it, The Wonderbox is full of stories and ideas from history, each of which sheds invaluable light on the decisions we make every day, whether we think about the different uses of the senses or changing attitudes to time. History is usually read for pleasure or for insight into current affairs, but The Wonderbox, stepping into the territory of Alain de Botton and Theodore Zeldin, is 'practical history' - using the past to think about our day to day lives.

Outlines the needs of the signs, the energies of the planets & the goals of the houses as related to choosing a vocation. Using keywords & basic interpretation the reader can put together a total picture of the talents & capabilities seeking expression. This understanding then helps direct the energies into selecting a satisfying career. Simple but impressive.
