about the idea of Persona and the psychological mapping of one's inner world. In fact, the interest is so strong that the superstar Korean Pop band, BTS, has taken Dr. Murray Stein's concepts and woven them into the title and lyrics of their latest album, Map of the Soul:Persona. What is our persona and how does it affect our life's journey? What masks do we wear as we engage those around us? Our persona is ultimately how we relate to the world. Combined with our ego, shadow, anima and other intra-psychic elements it creates an internal map of the soul. T.S. Eliot, one of the most famous

"To give birth to the ancient in a new time is creation," Jung inscribed in his *Red Book*. The essays in this volume continue what was begun in Volume 1 of Jung's *Red Book for Our Time: Searching for Soul under Postmodern Conditions* by further contextualizing *The Red Book* culturally and interpreting it for our time. It is significant that this long sequestered work was published during a period in human history marked by disruption,

The Red Book offers an antidote for this collective illness and can be seen as a link in the aurea catena, the "golden chain" of spiritual wisdom extending down through the ages from biblical times, ancient Greek philosophy, early Christian and Jewish Gnosis, and alchemy. The Red Book is itself a work of creation that gives birth to the old in a new time. This book speaks about obscure, typically unacknowledged aspects of the psyche. The shadow may appear initially like an unwanted intruder but those who become acquainted with their shadow discover it to be a vast storehouse of treasures and resources on the journey of self-discovery. Whereas the persona is the part of your personality that is revealed to others, the shadow is the part of your personality that is concealed from others and ourselves. The

Modern Man in Search of a Soul is the perfect introduction to the theories and concepts of one of the most original and influential religious thinkers of the twentieth century. Lively and insightful, it covers all of his most significant themes, including man's need for a God and the mechanics of dream analysis. One of his most famous books, it perfectly captures the feelings of confusion that many sense today. Generation X might be a recent concept, but Jung spotted its forerunner over half a century ago. For anyone seeking meaning in today's world, Modern Man in Search of a Soul is a must.
