This review was prepared jointly by the World Bank Group and the World Food Programme (WFP), building on the comparative advantages of both organizations. It examines the evidence base for school feeding programs with the objective of better understanding how to develop and implement effective school feeding programs in two contexts: a productive safety net, as part of the response to the social shocks of the global food, fuel and financial crises, and a fiscally sustainable investment in human capital, as part of long-term global efforts to achieve Education for All and provide social protect.

A comprehensive guide to the care, feeding, and housing of over 250 commonly kept species of birds.

The effective use of educational assessments is fundamental to improving learning. However, effective use does not refer only to the technical parameters or statistical methodologies. Learning assessments in use todaywhether large-scale or household surveys or hybrid (smaller, quicker, cheaper or SQC)have varied uses and purposes. The present volume provides a review of learning assessments, their status in terms of the empirical knowledge base, and some new ideas for improving their effectiveness, particularly for those children most in need. It is argued here that SQC learning assessments have the potential to enhance educational accountability, increase transparency, and support a greater engagement of stakeholders with an interest in improving learning. In addition, countries need a sustained policy to guide assessment choices, including a focus on poor and marginalized populations.

This book provides new insights about learning by synthesising existing and emerging findings from cognitive and brain science.

The first definitive biography of the Dalai Lama!a story by turns inspiring, surprising!from an acclaimed Tibetan scholar with exceptional access to his subject The Dalai Lama!s message of peace and compassion resonates with people of all faiths and none. Yet, for all his worldwide fame, he remains personally elusive. Now, Alexander Norman, acclaimed Oxford-trained scholar of the history of Tibet, delivers the definitive biography!unique, multilayered, and at times even shocking. The Dalai Lama illumines an astonishing odyssey from isolated Tibetan village to worldwide standing as spiritual and political leader of one of the world!s most profound and complex cultural traditions. Norman reveals that, while the Dalai Lama has never been comfortable with his political position, he has been a canny player!at one time CIA-backed!who has maneuvered amidst pervasive violence, including placing himself at the center of a dangerous Buddhist schism. Yet even more surprising than the political, Norman convinces, is the Dalai Lama!s astonishing spiritual practice, rooted in magic, vision, and prophecy!details of which are illumined in this book for the first time. A revelatory life story of one of today!s most radical, charismatic, and beloved world leaders.
