Teens always want more money. However, they often do not know how to handle the money they do have. Larry Burkett knows parents need to educate teens on solid, biblical money management if they're to exercise these habits as adults. In *Money Matters for Teens*, Burkett address issues of specific concern for teens and teaches them the basics to help them prepare for financial independence.

model for managing finances and fundraising. It guides leaders of any size church or ministry to create a culture of giving that supports savvy, faithful, and legal financing. The authors present a biblical theology of stewardship that supports ways to develop donors and maximize contributions, enact a strategic budget and effective audit process, project income and expenses, work with banks, compensate staff, and address debt. The book's practical step-by-step approach makes finance issues understandable for leaders without a business background.

The United States annually spends over \$300 billion on public elementary and secondary education. As the nation enters the 21st century, it faces a major challenge: how best to tie this financial investment to the goal of high levels of achievement for all students. In addition, policymakers want assurance that education dollars are being raised and used in the most efficient and effective possible ways. The book covers such topics as: Legal and legislative efforts to reduce spending and achievement gaps. The shift from "equity" to "adequacy"

as a new standard for determining fairness in education spending. The debate and the evidence over the productivity of American schools. Strategies for using school finance in support of broader reforms aimed at raising student achievement. This book contains a comprehensive review of the theory and practice of financing public schools by federal, state, and local governments in the United States. It distills the best available knowledge about the fairness and productivity of expenditures on education and assesses options for changing the finance system.

is back with a groundbreakingly frank guide to being a grown-up What does it mean to be an adult? In the twentieth century, psychologists came up with five markers of adulthood: finish your education, get a job, leave home, marry, and have children. Since then, every generation has been held to those same markers. Yet so much has changed about the world and living in it since that sequence was formulated. All of those markers are choices, and they're all valid, but any one person's choices along those lines do not make them more or less an adult. A former Stanford dean of
