This report discusses the findings of a nationwide study on the use of private prisons in the United States. The number of these prisons grew enormously between 1987 and 1998, with proponents suggesting that allowing facilities to be operated by the private sector could result in cost reductions of 20%. The study examined the historical factors that gave rise to the higher incarceration rates, fueling the privatization movement, and the role played by the private sector in the prison system. It outlines the arguments, both in support of and opposition to, privatized prisons, reviews current literature on the subject, and examines issues that will have

an impact on future privatizations. The report concludes that, rather than the projected 20-percent savings, the average saving from privatization was only about 1 percent, and most of that was achieved through lower labor costs. Nevertheless, there were indications that the mere prospect of privatization had a positive effect on prison administration, making it more responsive to reform.

What makes a good research topic in a literature class? What does your professor mean by "peer-reviewed" sources? What should you do if you can't find enough material? This approachable guide walks students through the process of research in literary studies, providing them with tools for responding successfully to course assignments. Written by two experienced librarians, the guide introduces the resources available through college and university libraries and explains how to access the ones a student needs. It focuses on research in literature, identifying relevant databases and research guides and explaining different types of sources and the role each plays in researching and writing about a literary text. But it contains helpful information for any student researcher, describing strategies for searching the Web to find the most useful material and offering guidance on organizing research and documenting sources with MLA style.
