Shhh... Did you know that there is a secret Language of Leadership: a timeless set of verbal, vocal and physical cues that still determines who rises to the top of politics and business today? For thousands of years, rhetoricians have tried to crack this code. It is only now, with new advances in neuroscience, that we can say for sure what works. Winning Minds is the definitive guide to the Language of Leadership. Top speechwriter, Simon Lancaster, shows how great leaders gain power by winning over people's instinctive, emotional and logical minds. With dozens of subtle but powerful practical techniques, the author shows how you can lead with language. • People are more likely to buy a product if it has three benefits, rather than four – so 'cheaper, better, faster' is better than 'cheaper, better, faster, greener'! • People are more likely to invest in a share if the metaphor of personification is used – so 'shares leapt' is better than 'shares bounced'; • People are more like to believe something is true if it rhymes – so 'we've got to seal the deal' is better than 'we've got to sign the contract'. Winning Minds will change the way you think about communication forever.

Ideas are the currency of the twenty-first century. In order to succeed, you need to be able to sell your ideas persuasively. This ability is the single greatest skill that will help you accomplish your dreams. Many people have a fear of public speaking or are insecure about their ability to give a successful presentation. Now public speaking coach and bestselling author Carmine Gallo explores what makes a great presentation by examining the widely acclaimed TED Talks, which have redefined the elements of a successful presentation and become the gold standard for public speaking. TED ? which stands for technology, entertainment, and design ? brings together the world's leading thinkers. These are the presentations that set the world on fire, and the techniques that top TED speakers use will make any presentation more dynamic, fire up any team, and give anyone the confidence to overcome their fear of public speaking. In his book, Carmine Gallo has broken down hundreds of TED talks and interviewed the most popular TED presenters, as well as the top researchers in the fields of psychology, communications, and neuroscience to reveal the nine secrets of all successful TED presentations. Gallo's step-by-step method makes it possible for anyone to deliver a presentation that is engaging, persuasive, and memorable. Carmine Gallo's top 10 Wall Street Journal Bestseller Talk Like TED will give anyone who is insecure about their public speaking abilities the tools to communicate the ideas that matter most to them, the skill to win over hearts and minds, and the confidence to deliver the talk of their lives. The opinions expressed by Carmine Gallo in TALK LIKE TED are his own. His book is not endorsed, sponsored or authorized by TED Conferences, LLC or its affiliates.

Speechwriting is the definitive guide to writing a speech, revealing all the tools and techniques of the trade, such as how to win an argument, construct a sound bite and perform on stage. The first part of the book covers the arts of persuasion, argument, story telling and metaphor, providing a solid grounding in the theory of speechwriting, which should appeal to anyone with an interest in politics, communication or language. The second part covers the crafts of editing, sound bites, media manipulation, performance and strategy, giving invaluable practical guidance to professional or aspiring speechwriters. This book combines academic rigour with practical nous, drawing on lessons from Aristotle to Obama. It is the essential guide for anyone who writes speeches, for themselves or others, in politics, PR or business.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Academy Award-winning producer Brian Grazer and an acclaimed business journalist examine the weekly "curiosity conversations" that have inspired Grazer to create some of America's favorite and iconic movies and television shows—from 24 to A Beautiful Mind.

Everything we know about the world today follows an invisible set of rules-how we work, love, parent, spend our money, and define success. But what if we could remove these outdated ideas and start anew? What would our lives look like if we could redefine the meaning of happiness, purpose, and success? The Code of the Extraordinary Mind blends computational thinking, integral theory, modern spirituality, evolutionary biology, and a little bit of humor to provide a revolutionary framework for re-coding ourselves with new, empowering beliefs and behaviors so we can live extraordinary lives. Throughout, Vishen Lakhiani shares transformative insights from legendary thinkers including Elon Musk, Richard Branson, and Arianna Huffington, among others, helping us to think like the greatest creative minds of our era-questioning, challenging, and creating new rules for our lives. Lakhiani's 10 laws help us restrain our minds to grow and achieve more than we ever thought was possible, showing us that we do not need to follow convention and can succeed on our own terms no matter where we are starting from.

Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

In Nazi Germany, Hitler portrayed the Jews as vermin and six million people were killed. Metaphors can make the unreasonable seem reasonable, the illegitimate appear legitimate, and good people turn evil. Top speechwriter Simon Lancaster goes on a mission to explore how metaphors are used and abused today. From Washington to Westminster, Silicon Valley to Syria, Glastonbury to Grenfell, he discovers the same images being used repeatedly. Scum! Bitch! Vegetable! Whilst vulnerable groups are dehumanised, the powerful are hailed as stars, angels or even gods. Prepare to take a journey into the surreal. This book raises profound questions about the power of language and the language of power. You will never think about words in the same way again.
